

Nothing Succeeds Like Success! By Bernadette Benedict

I am indeed happy that I got the opportunity to serve as an Intern and represent Monash University. This gave me the pleasure and privilege of meeting and getting to know the other interns from other faculties. The experience I gained by interacting with them, sharing and exchanging views & ideas made me more enlightened and indeed I feel richer from the experience.

Furthermore, at the careers fair, we had the rare privilege of meeting and discussing our hopes and aspirations with the representatives from a number of prestigious corporate entities. They too I am sure would have been quite happy to meet us and in the process get to know our capabilities and potential. In addition we got that much needed experience and most importantly got to know their views, and what they were looking for in potential graduates.

In fact, it was indeed an exercise in marketing & research work for undergraduates who will be graduating in the near future and how to be prepared to face the new and exciting world which is full of opportunities for those students who are hard working, clever and enterprising.

To profit by our education and enjoy the fruits of our labour we must be thoroughly focused and prepare ourselves by setting goals for ourselves within the time frame of our undergraduate studies. Together with the experience and the wonderful environment of the Universities which are conducive to learning we must prepare ourselves to meet the challenges that lie ahead of us.

After all nothing succeeds like success.
